

```
const mySource$ = new Subject<any>();
```

```
mySource$.asObservable().subscribe(  
  value => doStuff(value)  
);
```

```
// Push data
```

```
mySource$.next('foo');  
mySource$.next('bar');  
mySource$.complete();
```

“

Observables *are a* ***sequence***
of events/values emitted over time
